

Workshop on

Computational Social Science

Centre for the Advanced Study
of Collective Behaviour

Universität
Konstanz

Thursday, February 6th

Universität Konstanz F420

14:30 – 15:30 Petros Dellaportas (University College London)
Bias and Variance Reduction for Metropolis Samplers

15:30 – 16:00 Coffee Break in F 423

16:00 – 16:45 Phillip Schmocker (University of St.Gallen)
Deep Stochastic Portfolio Theory

16:45 – 17:30 Stephan Eckstein (University of Konstanz)
Numerical Representation of Probabilities: Tools
from Generative Adversarial Networks

17:30 – 18:15 Rouzbeh Hasheminezhad (ETH Zürich)
Computational Experiments Challenging the 'Robust-yet-
Fragile' Dictum for Scale-Free Networks

Konstanz – St.Gallen – Zürich
Workshop on Computational
Social Science

Organized by

Winfried Pohlmeier
Lyudmila Grigoryeva
Universität Konstanz
